

THE SET[®]

STRAIGHT EDGE TOOL

The perfect accessory for achieving an even finish

➔ Specially designed for **THE GRINDER[®]** and **THE GRINDER₂[®]**

TECHNI**GLASS**

SOPHISTICATED DESIGN with UNSURPASSED ACCURACY

FEATURES:

- The SET Straight Edge Tool perfectly aligns atop THE GRINDER® and THE GRINDER2® work surface, enabling glass to easily slide between the grinding bit and the straight edge guide bar
- Precisely grind rectangle and square shaped glass to your desired dimensions
- Finish your pieces with confidence and accuracy.

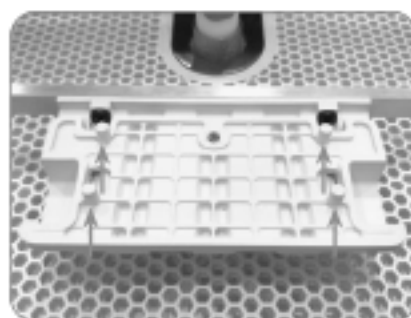

ORDERING:

Techniglass Item #	Description
TNG TGSET	Straight Edge Tool for The GRINDER®
TNG TG2SET	Straight Edge Tool for The GRINDER2®

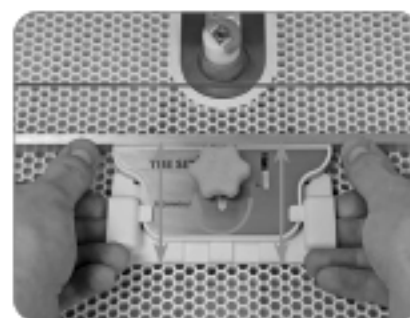

INSTALLATION AND USE:

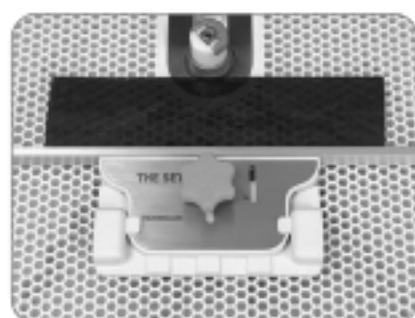

1. Turn off Grinder. Center THE SET horizontally across the Lift Grid, in-line with the grinding bit.

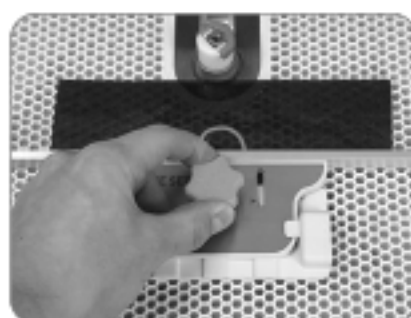

2. Place the Positioning Pins (on the underside) into the Lift Grid holes.

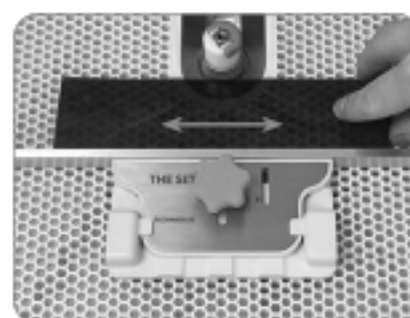

3. Loosen the Adjustment Knob counter clockwise and slide the Adjustable Plate to desired location.

4. Place glass flush against the aluminum bar. Slide the Adjustable Plate until the glass makes contact with grinding bit.

5. Tighten the Adjustment Knob by turning clockwise until it locks when the Adjustable Plate is in desired location. Remove glass piece. Turn on Grinder.

6. Place glass flush against aluminum bar and grind moving glass from right to left.
