

Stand Up #1 Mold (8 x 6 x 2 in.)

This square is the maximum body size

Create glass figure to fit inside this diagram with legs in indicated areas. Fuse glass figure first, according to your own artistic preferences. Apply glass separator to Stand-Up mold according to manufacturer's instructions.

Place fused glass figure on mold in kiln and slump/drape at 350 degrees/hour to 1175 and hold for 5 minutes.
